

As Riviera Hotels, we:

- Identify the negative impacts of our activities on the environment and strive to prevent potential hazards without causing any kind of pollution in order to protect and sustain the environment we live in.
- Comply with environmental laws, regulations, and legislations in force to ensure the controlled use of natural resources and to minimize energy consumption as well as air, water, and soil pollution. We share this sensitivity with our employees, suppliers, and guests.
- Organize activities and collaborate with local authorities to instill environmental awareness not only among our employees but also among our guests, aiming to reduce our impact on nature and the environment.
- Evaluate and develop methods to reduce the effects of the environmental damage we cause within the framework of legal regulations.
- Prioritize the effective separation of waste at the source, based on its type and hazard class. We are aware that such efforts will enable more waste to be recycled or disposed of without harming nature, and we aim to reduce the amount of waste we generate
- Measure our environmental performance, monitor it against our targets, and continuously strive to improve it.
- Aim to increase the environmental awareness of our employees through training and engagement.
- Work to involve our guests and employees in our environmental protection policy and strive to turn this philosophy into a way of life.

Vice Chairman of the Board
İBRAHİM SİPAHİOĞLU
